

# MAGAZINE SURVEY

The advent of the Covid-19 pandemic has caused many organisations and businesses within our society to adapt, improvise and diversify the way they operate. The Church too, at local and national level, has used technology and found different ways to minister, evangelise and serve the parishes and communities for which they have responsibility, our own included.

It has always been the intention of our parish magazine to communicate not only the Christian Faith and the activities of our parish but also support local business and community groups. The pandemic has prevented our usual community wide distribution of this free magazine to 3900 homes and although copies are available at Hatherley Post Office, it has encouraged us to bring forward the idea of placing our magazine on-line, via our parish website and Facebook.

The time has now come to survey our parish and community to ascertain the viability and efficiency of our magazine in its present format. Therefore we are asking readers to respond to the following:

1. I do/do not wish to receive a hard copy of the parish magazine.
2. I am happy to read the parish magazine via the parish website or Facebook pages.

Please contact us, **by 30<sup>th</sup> November**, giving your name and address, only if you wish to continue to receive a hard copy, by emailing us at [churchwardens@saintsphilipandjames.org.uk](mailto:churchwardens@saintsphilipandjames.org.uk), or responding via our Website page. Alternatively you can return this form to the parish address on page 2.

Whatever the outcome of the survey hard copies of our magazine will still be available at Hatherley Post Office, Dundry Garden Centre and the Parish Council.

Many thanks for your help.
